Couplet

```

C#m                                     G#7
On a dark desert highway, cool wind in my hair
B                                     F#7
Warm smell of colitas rising up through the air
A                                     E
Up ahead in the distance, I saw a shimmering light
F#m                                     G#7
My head grew heavy and my sight grew dim; I had to stop for the night.

```

```

C#m                                     G#7
There she stood in the doorway; I heard the mission bell
B                                     F#7
And I was thinking to myself, "This could be Heaven or this could be Hell."
A                                     E
Then she lit up a candle and she showed me the way
F#m                                     G#7
There were voices down the corridor. I thought I heard them say...

```

Refrain

```

A                                     E
Welcome to the Hotel California...

G#7                                     C#m
Such a lovely place, (such a lovely place) such a lovely face...

A                                     E
Plenty of room at the Hotel California...

F#m                                     G#7
Any time of year, (any time of year) you can find it here..

```
